THE FOOD HYGIENE [SCOTLAND] REGULATIONS 2006

Premises Name	Abacus Pre School Nursery
Premises Address	416 King Street, Aberdeen
Date of Inspection	10 November 2009
Type of Inspection	Food Hygiene

OBSERVATIONS/ACTION REQUIRED

Routine food hygiene inspection. Pleased to see high standards of cleanliness and food safety control are being maintained.

Ensure records are kept fully completed in the event of regular staff absence and appropriate staff should be trained in necessary checks to ensure food safety records are consistent and up to date.

I recommend that on the occasion of infrequent cooling and reheating if high risk dishes, that the cooling times are recorded. Meat based dishes should be cooled within 1½ hours and thereafter transferred to a refrigerator – as documented under your 'House Rules'.

Well managed operation in terms of food safety control, cleanliness and hygiene practices.

Thank you for time given.
