My response to the Main Issues Report

Development Bid Reference 0944 Inchgarth Road

This site should be given approval for inclusion in the Local Development Plan as it offers an important solution for an emerging, growing need as well as addressing an immediate roads problem.

I believe that we have a duty to ensure that the decisions we make today are future-proof as far as possible. I am aware that the demand for suitable retirement accommodation is likely to go off the scale in the next 20 years. The need for this type of housing has been identified in the Scottish Planning Policy. It therefore makes perfect sense that this type of housing has been given priority over other options for this site and approval should be granted.

The development however comes with an equally important element - that of a fit for purpose new link road. This is most definitely an important part of the roads infrastructure.
