

Private Landlord and Letting Agent Webinars: Full Programme Announcement

Under One Roof, with support from the [SafeDeposits Scotland Charitable Trust](#), is excited to announce the full webinar programme schedule for private landlords and letting agents in Scotland.

The webinar series, which launched in August, has already covered issues such as noise reduction and cladding, and featured appearances and videos from local authority environmental health officers, property management and Scottish Government officials, and the founder of the High Rise Scotland Action Group, among others.

The next one-hour session, held at 6pm on Tuesday 12th October, covers **how to buy and sell flats responsibly**. The webinar will feature conservation professional David Gibbon, a Chartered Building Surveyor and Chartered Building Engineer as well as a discussion with Ross Mackay, one of Scotland's leading property solicitors, on the purchase and selling of tenemental property. Registration details for the webinar can be found here: <https://bit.ly/Buy-and-sell>.

In addition to the topical webinars such as these, at the end of each month Under One Roof continues to host '**Ask the Tenement Experts**' webinars. Register for the one-hour sessions, where you'll be able to ask experts about general issues related to tenement buildings, and specific issues related to your flat. The next one-hour Q&A session will be held on Tuesday 26th October. Registration details can be found here: <https://bit.ly/QA-Oct-SHN>

CPD certificates are available for professionals who take part in the webinars.
