Dear [REDACTED],

Thank you for your information request of 7 August 2017. Aberdeen City Council (ACC) has completed the necessary search for the information requested.

Please provide me with a list of all of the council's publically available electric vehicle (EV) charging points, and tell me how many vehicles can be plugged into each charging point at once. Please also tell me when each of the charging points were installed, and how long they have each been active for.

| Site | Number of charge points | Operational since (Two dates quoted if this differs from date installed) |

We have included the car club spaces as public as members of the public are able and encouraged to join the car club.

The last 5 sites only went live w/c 21/08/2017 so will not have collected any data within the reporting period you have asked for.

Tell me how many times each charging point has been used since each of them were first installed, broken down by month, up to and including the date of the receipt of this email. Please also tell me the total amount of energy, expressed in kWh(kilowatt hours) , each charging point has been able to provide to the vehicles using them, again broken down by month since each charging point was installed up to and including the date of the receipt of this email.

Please refer to the attached document, [FOI-17-1141 – Usage](#).

Finally, please tell me the total running cost for each of these charging points, again broken down by month since each charging point was installed up to and including the date of the receipt of this email.

We are unable to provide this due to the following reasons.

- Billing is quarterly so we cannot break it down by month.
- Some billing is based on estimates rather than actual readings
- Not all sites are individually billed as not all chargepoints have their own individual supply. Some charge points are wired into buildings.

However, we can provide the following for each calendar year.

2013 – Based on 6 sites - £282

2014 – Based on 9 sites - £2546

2015 – Based on 19 sites - £13,116

2016 – Based on 37 sites - £21,806 (estimated amount based on a mixture of estimated readings, actual readings and actual consumption)

Where a reading is estimated, we know how much we have been charged for, the amount of energy that we have been billed for, we know how much energy has been dispensed by the units to charge vehicles (we can log into each unit remotely and get these figures for any time period of our choosing so it can easily be matched to a billing period) and we know, from the non-estimated bills, how much energy the units have actually consumed in this time. This will differ from the amount they have dispensed to charging vehicles as, in addition to the electricity which is consumed to charge cars, the units will consume some additional energy on top as they have status lights, illuminated screens and are constantly in communication with a back office server, all of which operate 24/7.

Therefore, using the difference between the amount of energy dispensed by the units and the amount of energy they have consumed, we are able to use a multiplication factor to work out, as accurately as we can, how much the consumption at each individually metered site has cost us.

The 2017 year will be calculated once we receive some more billing information.

All figures are exclusive of VAT.

ACC is unable to provide you with information on **the total running cost for each of these charging points, broken down by month since each charging point was installed up to and including the date of the receipt of this email** as it is not held by the Council. In order to comply with its obligations under the terms of Regulation 10(4)(a) - Information Not Held - of the EIRs, ACC hereby gives notice that this information is not held by it. ACC is required by Regulation 10(1)(b) of the EIRs to inform you as to why in all the circumstances of the case, the public interest in maintaining this exception outweighs the public interest in disclosing this information to you. ACC is satisfied that it does not hold this information and considers that, as there is no information held, the public interest lies with the exception.

We hope this helps with your request.

Yours sincerely,

Information Compliance Team

INFORMATION ABOUT THE HANDLING OF YOUR REQUEST

As the information which you requested is environmental information, as defined under Regulation 2(1) of the Environmental Information (Scotland) Regulations 2004 (the EIRs), ACC considered that it was exempt from release through FOISA, and must therefore give you notice that we are refusing your request under Section 39(2) of FOISA (Freedom of Information (Scotland) Act 2002). However, you have a separate right to access the information which you have requested under Regulation 5 of the EIRs, under which ACC has handled your request. Please refer to the attached PDF for more information about your rights under the EIRs.
