

Aberdeen Local Development Plan Review

Pre- Main Issues Report Questionnaire 2018

Aberdeen City Council is currently in the early stages of reviewing the Aberdeen Local Development Plan 2017(ALDP). The 2018 Development Plan Scheme provides a timetable for the review of the ALDP and the opportunities to participate throughout the process.

It is available to view online at: www.aberdeencity.gov.uk/localdevelopmentplan

This questionnaire forms part of the pre-Main Issues Report consultation activities we are undertaking. It is designed to gather views on the main planning issues in Aberdeen to be considered by the next ALDP.

2. ABERDEEN'S MAIN PLANNING ISSUES

Feel free to continue on separate sheets if necessary and attach to the questionnaire. You do not have to answer every question.

Vision

2.1 What do you think are the most important things that make Aberdeen a good place to live, visit and/or work?

Educational establishments

2.2 What do you think should be the Council's top priorities for the next Aberdeen Local Development Plan?

Build / improve schools

2.3 Do you have any particular aspirations for your community or Aberdeen as a whole that you think should be taken forward through the ALDP? For example, what are your views on recycling of waste, affordable housing, access to green space or ways to reduce CO₂ emissions?

Recycling seems a bit confusing. A "top" man on the TV says different Council, different recyclables. Why?

Policy Topic Areas

What do you think should be our main planning priorities for...

- 2.4** ...the City Centre? (For example, what should the role of Union Street be? Does the City Centre have all the uses we want, or should there be more uses there - and if so where could they go?)

Keep it as a bus station.
Put more residential stuff in it, shops, as doing at Holburn end?

- 2.5** ...providing infrastructure? (For example, how should new infrastructure be provided and how might it be paid for?)

AWPR & Diamond Bridge mean we have had our turn.
Don't overspend.

- 2.6** ...transport and accessibility? (For example, how can we make it easier to travel in and around Aberdeen? Should we look at pedestrianisation in the City Centre?)

Road network is not up to more pedestrianisation.

- 2.7** ...ensuring we have high quality buildings and places? (For example, how can we better protect our built heritage and ensure high quality and sympathetic architecture and landscape design?)

- 2.8** ...meeting the needs of business and industry? (For example, what can be done to retain existing businesses and attract new employment opportunities to Aberdeen?)

Grant aid for new business like Edinburgh and new oil and gas stuff.

- 2.9** ...meeting Aberdeen's housing and community needs? (For example, how can we meet the needs of people who cannot afford mainstream housing?)

Get them to move out of town like lots of people do.

2.10 ...supporting retail centres across Aberdeen? (For example, should we be safeguarding existing centres, and what are your thoughts on new out-of-town retail parks?)

Market forces

2.12 ...ensuring that resources and waste are managed sustainably? (For example, can we make more innovative use of waste as a resource? Should we encourage renewable energy use? How could we do these things?)

Bury more if plastic lasts so long should be alright

2.11 ...protecting and enhancing the natural environment and preventing flooding? (For example, what areas or features should we be safeguarding?)

2.13 If you have any views on topics not covered above, please write them below.

Education seems not to get covered. Is it a different document?
