

National Referral Mechanism form for potential child victims of human trafficking (Scotland and Northern Ireland) [GDPR]

To note: this form is for all child cases identified across Scotland and Northern Ireland.

For England or Wales cases please use the relevant form.

For referral of potential adult victims please refer to the specific adult guidance and form.

Child trafficking, is child abuse. When an agency comes into contact with a child who may have been exploited or trafficked, Local Authority Children's services (the relevant Health and Social Care Trust in Northern Ireland) and the police should be notified immediately. A referral into the NRM does not replace or supersede established child protection processes, which should continue in tandem.

All children, irrespective of their immigration status, are entitled to safeguarding and protection under the law. Referrals to the NRM should be for all potential victims of trafficking, who can be of any nationality, and may include British national children, such as those trafficked for child sexual exploitation or those trafficked as drug carriers internally in the UK.

Where there is reason to believe a victim could be a child, the individual must be given the benefit of the doubt and treated as a child until an assessment is carried out.

This form should be completed with reference to the linked guidance available on gov.uk.
