

Don't be an idler!

Switch off your engine for cleaner air in Aberdeen

Running your engine unnecessarily while your vehicle is stationary pollutes the environment, costs money and is against the law.

- Exhaust emissions contain a range of air pollutants such as carbon monoxide, nitrogen dioxide, hydrocarbons and particulate matter
- Traffic fumes can make asthma conditions worse
- Children are more vulnerable to air pollution because they breathe 50% more air per pound of body weight than adults
- If you are going to be parked for more than 30 seconds, turn off your engine – idling your engine uses more fuel than it takes to re-start your engine

Cleaner FOR ABERDEEN

Idling is illegal!

Vehicle idling is an offence against Road Traffic (Vehicle Emissions) (Fixed Penalty) (Scotland) Regulations 2003. The law states that it is an offence to idle your engine unnecessarily, and you may be issued with a £20 fixed penalty notice.

Benefits of turning your engine off

- Improves air quality
- Reduces your fuel costs
- Complies with the law

Use of alternative means of travel

- Walk/cycle
- Public transport
- Car share
