Visual Storyboard

This is what you see when you come in.

The adult stock is shelved on the right hand side and the children's section is ahead on the left.

This is the children's section. You can find books for children from 0 to 16, both fiction and non-fiction. We also have a computer dedicated to children.

You can use the
computers.

We have printing and
scanning facilities
available with your
library card.

This is where you can ask the staff for help and borrow or return items.
