

Wildflower garden instructions

Items needed

- Wildflower seeds
- Fork, spade, sand, watering can

Steps

1. Find area in garden to turn into wildflower garden, best next to wall or fence with partial sun.
2. Use spade to remove grass or other material in space, remember to knock off as much soil as possible.
3. Use fork to remove all weeds and large stones.
4. Mix wildflower seeds with sand. Spread evenly across area.
5. Water area well.
