

Aberdeen City Council Applicants Expression of Interest Form

The paid graduate internships and work-based training opportunities fund is part of a new North East Economic Recovery and Skills Fund (NEERSF), a £14.3m investment by the Scottish Government to support economic recovery, boost employment and enhance skill levels for people who reside in the North East of Scotland (Aberdeen City and Aberdeenshire).

One part of this fund is designed to provide paid graduate internships and work placements for those not covered by other funds. This fund is for those hardest hit by the Covid-19 pandemic and oil and gas downturn, to support graduates to develop employability skills and provide valuable work experience, which will support and enable them to remain in sustainable employment, while supporting businesses to grow.

The second part of this fund provides six months of work-based training opportunities for those aged over 25 years old and those not covered by the Young Person's Guarantee or Kickstart fund schemes. This incentive will support those furthest from the labour market to develop workplace skills and support individuals to upskill and enter into specific roles, particularly in sectors that are struggling to recruit, including green jobs, hospitality, health and social care and others hit by the pandemic.

This Expression of Interest Form is to open a dialogue between the applicants and Aberdeen City Council.
