Compliments, Comments, Complaints

Complaints do arise. Sometimes we make mistakes. When this happens, we want people to let us know immediately what has gone wrong so we can apologise and put things right. In the first instance, discuss your concerns with the case officer. Should your concerns remain, please contact the **Building Standards Manager** to instigate further investigation.

If you are still not satisfied, your complaint will be dealt with in accordance with the Council's Corporate Complaints Procedure, which is available on request, at Marischal College or on the City Council's web-site:

http://www.aberdeency.gov.uk/council_government/feedback_complaints/crc_complaints.asp

We are committed to improving the quality of the service we provide and would like to know your views on the service you have received.

Verification Information

Pre-application discussion is welcomed irrespective of the complexity of the proposals. The service recognises that what looks like a simple application can be complex to a person with no specialist knowledge. Also, on larger applications, it fosters two way discussions, which is beneficial to both applicant and verifier.

An application for building warrant can only be lodged if the application form has been correctly completed and is accompanied by the correct fee. A guidance note entitled 'Building Warrant Applications - Guidance Notes' is available electronically on the City Council's web-site.

The following applications will be fast tracked:

- Applications of a minor nature
- Developments that will improve personal health in the community including adaptations of dwellings to benefit disabled residents
- Proposals that are related to key sectors of the City's economic strategy

During the construction period, responsibility for compliance with the building warrant approval lies with the applicant or owner whilst the verifier is required to make reasonable enquiry to ensure that this is achieved. It is not the role of the verifier to act as a Clerk of Works. It is highly recommended that the applicant appoint an appropriate professional, for example an architect or chartered surveyor, to look after their interests in this respect.

Performance Outcomes

In most cases, we aim to provide you with a technical response, or issue the building warrant, as applicable, within 20 working days from receipt of your valid application. In some cases, applications for a building warrant will result in a “customer agreement” between you and building standards where the performance outcomes including the target first response period will be specifically agreed.

Dissatisfaction with response times performance

Other than those applications covered by a customer agreement, if you have not received a technical response, or a building warrant, as applicable, within 35 working days from receipt of your valid application you have the right to request resolution to the matter. This may be done by contacting the **Building Standards Manager**.
