

CREATIVE CLASSROOMS

CREATIVE LEARNING PROGRAMME

Creative Classrooms is an innovative, pilot programme designed for educators and PGDE students. It aims to empower teachers and students to take more creative risks and feel more confident in developing their creative skills to embrace and nurture creativity in their classrooms and within their own practice.

Creative Classrooms defines what creativity is within an educational context, discusses why the creative skills are so important across the curriculum and how creativity can bring learning to life for both our educators and learners.

Creative Classrooms is being delivered by the Council's Creative Learning team..

**This pilot project was designed and developed for
University of Aberdeen, Primary Education PGDE**

STATISTICS & IMPACT

Number of Creative learning Staff facilitating the programme	3

Students were more confident in their understanding of the National Creative Learning Plan and felt more confident in their understanding of creativity within an educational context

“Really fun session!
I learned a lot about creativity and what it could look like in my classroom.
Thank you...
Participant”

FEEDBACK

“I didn't know much about the National Creative Learning Plan before this session. I am going to find out about it now...
Participant”

The sessions focussed on developing Creativity Skills within the classroom with the majority of students feeling they could better problem solve and use their imagination by the end of the day.
