

<p>Consultation Feedback 29th November 2016 – Venue – St. Peter’s RC School</p>		
Participant	Question/Topic Raised	ACC Response
St Peters Parent Council Member (2 children at ST Peters)	Neither options presented by the Council are suitable to meet the children’s needs- do not wish to move to a second hand building. Visited a shared campus in Dundee with 2 schools in a shared space and the RC School appeared to be disadvantaged. Propose an Option C- A new 3 stream St Peters School with nursery on the former St Machar school site- to keep identity and promote diversity- 98% parents in favour of this option.	ECW- Happy to discuss option C
Riverbank Parent Council member (2 x children at R/Bank)	Promoted opposite opinion to parent council option C. Agreed shared campus at Dundee was not as integrated as it could have been. 95% Parents in favour of option B to address capacity issues.	RB- 98% Occupancy 2016 and be over capacity 2017 SP- 130% Over capacity
St Peter’s Parent	What is the overcapacity at Riverbank?	There is already pressure.
St. Peter’s Parent	Making the point that St. Peter’s is already over capacity	
Parent St Peters	How can we trust the figures in light of the old ST. Machar school being demolished?	ECW- absolute faith in figures from NHS birth rates; population demographics; migrations
St. Peter’s Parent	Has ACC considered what parents might choose – Riverbank parents may choose to remain on that site (once it becomes Catholic) because there are many Polish who are mainly Catholic.	In his experience parents will want to move to the new build.
Parent St Peters	Has the Council checked how	Parental choice; re emphasis on

	<p>many people in zone want an RC education?</p> <p>What will the Council do if majority of parents want to stay at St Peters or Riverbank?</p> <p>Does the Council know the actual figures who will want to go to a particular school?</p>	<p>birth rates; populations and migrations</p>
Parent St Peters	<p>Does the Council know how many people in Tillydrone are RC?- has the Council done any research?</p>	<p>ECW- To be looked at</p>
Parent St Peters	<p>Has Council factored into projection figures the amount of people being turned away from St Peters due to overcapacity?</p>	<p>ECW- Council wishes to increase capacity</p>
Parent St Peters	<p>If St Peters moves to Riverbank will that increase capacity?</p>	<p>ECW- ACC will look and review data</p> <p>How many people applied and had to go elsewhere</p> <p>Around 60 pupils from St Peters area attend St Josephs</p>
Parent St Peters	<p>Pupils travelling to Riverbank – will be traffic chaos due to site constraints- a lot of parents at St Peters walk to school</p>	<p>Parent Council- 2 entrances</p>
St Peter's Parent	<p>The phrase "Best Value" means it is about money.</p>	<p>Explained definition of best value – providing the best education and welfare for our children in order to give them the best chances in life.</p>
Parent St Peters	<p>Is this meeting and contribution just tokenistic</p>	<p>ECW- refuted that this exercise was merely symbolic or perfunctory and reiterated that refurb or extension at St Peters is not possible.</p>
Parent St. Peters	<p>Has decided to send kids to Riverbank school because of poor condition of St. Peters</p>	
Parent St. Peters	<p>St. Peter's kids have not been well served by the council in recent years. They deserve to come first ahead of Riverbank.</p>	
St. Peter's Parent	<p>St. Peter's delivers a very high quality education.</p>	

Parent St Peters	Can Riverbank be extended? Many parents feel RB is a better school and that's why they choose to send their children there- but if St Peters had a new school many parents would choose to send their children there St Peters is well over capacity and needs a new school and should come before RB as RB has a new school	ECW- RB will be over capacity in 2017 and continue to 2022 where it will be 200% over capacity
Parent St Peters	St Peters is a great, amazing school and do not want to move or be disturbed	
Teacher St Peters	First taught at the school only about a third of pupils were different faith now it has increased tenfold and with all nationalities	
St Peter's Parent	Option C would be very attractive to many parents of faith. Emphasised diversity	ACC is committed to diversity in all schools.
Riverbank Parent	Riverbank is now a very diverse school. Is there any reason why RC parents would not send their kids to Riverbank? Would a new 3 stream non-denominational school on St. Machar site be acceptable to all parties?	
St. Peter's Parent	Want a RC school, it needs to be close to the community – no car and have to walk to school.	
General discussion	Secular Religious education compared to RC instruction	Clarified the provision of religious education in non-denominational schools vs RC schools.
Parent St Peters	Why were site constraints at St Peters not mentioned in consultation in May ? Will ACC admit they made a mistake in knocking down the old St Machar School?	ECW- went through the legalities of having a formal consultation and that elected members can and have over turned decisions of the Council.
Parent St Peters	Why not have this all online and then people can choose where to send their child and apply online- ACC needs to	ECW- there is online placing request system already And researchers looking at the online survey

<p>Parent St Peters</p>	<p>change the online survey?- online survey is biased- need to be changed Does ACC have all the demographic detail to provide statistical analysis?</p> <p>Former ST Machar/Tillydrone site has been allocated for SIP Housing on ACC Website- has this site been confirmed for education?</p>	<p>NHS does not give out how many registered RC Births</p> <p>St Machar grounds allocated for housing but the priority is for education. ACC is fully committed to diversity and inclusion 10 years ago when St Machar was closed the population was very different and then the population expanded rapidly to its present level. St Machar was a single stream school and would not have coped with expansion.</p>
<p>Parent Riverbank & Parent St Peters</p>	<p>Riverbank Been through amalgamations over past 8 years and trying to build 2 schools into 1 is very difficult as Riverbank is very diverse and there could be an “us +them” issue with RC pupils going to Riverbank and suggested Tillydrone be split</p> <p>How will the RC Integrity and ethos be maintained as it will not be a like for like merger?- also distance to travel, no other school in walking distance</p>	<p>ECW- legislation requires that there has to be proposals</p>
<p>Parents St Peters</p>	<p>St Peters Community has number of people not from Aberdeen and has a special kind of international feel and ethos in the school and feels that proposal will disenfranchise this ethos.</p> <p>Two schools merging is this non denominations? Or secular religion? St Peters teaches RC Focus on religion</p>	<p>ECW- Pupils can opt in/out for RC religious ethos and St Peters teaches all social and moral characteristics of all faiths.</p>

Parent St Peters	Both communities want a 3 stream school for Riverbank and St Peters- feels there is an ethos that “foreigners are getting a new school”	ECW- Council merely wishes to find a solution to fit both needs of each school
Parent St Peters	Has cost of renovating ST Peters been looked at? What is the budget for this? Why spend £100million on new Council offices and £17million on education? Idea of costs for new school?	ECW- site not suitable for building an extension on £17million budget and ECW will fight for more if this is required New Stoney wood is £13million and is 2 stream with nursery for 60 places Will be dependent upon agreement by elected members and options Usually one proposal is taken forward after consultations and previous pre consultation showed st Machar park was not supported by either community and shared campus not supported by St Peters.
Parent St Peters	Is shared campus nursery non-denominational?	ECW- all nursery is non-denominational
Ross Grant – Elected Member	ACC is taking all feedback seriously and will take on board all comments and noted that both schools have capacity issues and close knit communities and how hard staff and parents work for each school. Officers will take away comments and all views will be taken on board.	
Feedback 30 November 2016 (Venue - St. Peter’s)		
Participant	Question/Topic Raised	ACC Response
Parent- St Peters	How does the capacity issues at St Peters get addressed and at Riverbank	ECW/AJ- 2 stream will provide space for 430 pupils Current St Peters was designed for 198 capacity and is well over capacity
Parent	What does 2 stream mean? How many pupils in class	ECW- 2 x P1 2X P2..ETC ECW- went through class sizes-

	groups?	P1- 25 P2 to p3 – 30 P4 to p7 - 33
Parent- St Peters	St Peters takes in 20 different nurseries – will all parents in areas be aware of this on the website- as the website states St Peters only takes in 3 nurseries	ECW- need to check this
Parent- St Peters	P1 in St Peters but not Catholic- value the ethos of the school and attracted due to fact it is Catholic school Don't assume the school only appeals to Catholics.	ECW- parental choice and don't need to be a Catholic ECW asked MT to discuss identity and collaboration work in shared campus in Dundee- need to look how this would work
Parent- St Peters	Why not go with the 3 stream school option suggested? How many applications turned down for P1 at St Peters?	ECW- to research into the trend of how many people were turned away each year at St Peters due to lack of space. ECW- to sit with Parent Council to discuss further options.
Parent	Not possible to expand Riverbank?	ECW- no, no comments on Riverbank being expanded ECW- asked parent who went to visit shared campus in Dundee-overwhelming feeling of depression; felt the Catholic identity was lost; too many partitions in place; no RC iconography Head Teacher comments- would rather have 2 separate schools but make it work as the 2 Heads want to make it work and get on with each other- still new model only 4 years old. Didn't speak to anyone on the non-Catholic side.
Parents- St Peters	Worried about shared campus- prefer 3 rd Option Why can't we have portacabin on site? Why can't it be refurbished? Feel ethnic background is being discriminated against Why build a school for Riverbank? Need new school in our own	ECW- any views put forward will be recorded and analysed and passed to elected members ECW- refute race bias claim and don't care where children come from and only care about giving children a first class education.

	<p>area of St Peters</p> <p>Why given 2 options with no real reasons behind it- feel we can't do anything</p> <p>We not born here so feel disadvantaged</p> <p>Feel ignored; Council doesn't care; feel there is a slant against their race/ethnicity</p>	
	<p>Asked if University give Dunbar Hall Site for free- and do you know value and is tokenistic</p> <p>Can we have a voice and be recorded and a formal report</p>	<p>ECW- spoken with University counterpart and land would not be free</p> <p>3 weeks before elected members see reports the parents can view all records of conversations</p>
Parent- Riverbank	<p>Stated that parents have no racial bias against and no animosity</p>	
Parent- St Peters	<p>Want to say at current St Peters- put in portacabin</p> <p>ACC doesn't think of the future</p>	<p>ECW- this consultation is about the future</p> <p>ECW- the closure of St Machar pre dates officers in the room except 1 elected member. ECW explained rise in birth rates n population migrations over the last 10 years compared to now.</p>
Parent- Riverbank+ Parent at St Peters	<p>Riverbank campus is 98% occupancy</p> <p>Are ACC looking at capacity now?</p> <p>3 stream school is needed now</p> <p>Some parents are sending different sibilings to 2 separate schools due to capacity</p>	<p>ECW- are looking into capacity issues</p>
Parents R/Bank and St Peters	<p>Riverbank has strong sense of community and has built this up over last 8 years and possibility of new school zone is scary for parents.</p> <p>Is like St Peters pitted against Riverbank school</p>	<p>ECW- trying to deal with school communities sensitively and try to deal with the issues in best way possible</p>

	<p>St Peters 256 roll and over capacity for ages and people are being turned away- school bulging at the seams School does work really hard but school not in good condition for capacity of 198. Feels like the minute Riverbank gets overcapacity the Council reacts but St Peters is left hanging. The RC Catchment area is huge and parents cant fit their children in..can get a child in school but nursery elsewhere. One of the only schools that doesn't have a nursery.</p> <p>What is the P1 intake this year? 1 class goes out and 2 comes in Want to know the school will be here and doesn't want to be pitted against Riverbank.</p>	
Parent- St Peters	<p>How many people know 3 stream school at st Peters is an option + naturally take a stream from Riverbank to alleviate pressure at R/Bank</p> <p>Have post codes been analysed?</p>	ECW- Been looking at postcodes and locations over last couple of years
Parent	<p>Raised issue with not obtaining placement at St Peters and not being Catholic</p>	
Parent- St Peters	<p>Raised discussion about St Peters ethos and spirit and being friendly and that St Peters has problems now and Riverbank in the future.</p> <p>Schools should be kept as separate buildings</p>	
Parents- Riverbank/St Peters	<p>How will 3 stream school work</p>	ECW- asked previous teacher to

	<p>but asking for separate schools?</p> <p>Will work if you have a choice</p>	<p>Speak about St Peter's ethos in the school- 2012- 61% Catholics and 10 different faiths attended at same time and 40 different nationalities. Faiths were understood not tolerated and they were celebrated and St Peter's needs to return to this.</p>
	<p>How are the points taken forward and points calculated?</p> <p>Can data be provided for rolls over last 5 years ?</p>	<p>ECW- if 1000 replies want Option A and 5 want Option B then this will be recorded and formalised and presented to elected members for their decision</p>
<p>Feedback 1st December 2016 (venue - Riverbank school)</p>		
<p>Riverbank PC member</p>	<p>3rd proposal being put forward by St. Peter's PC – where does Riverbank fit into this – how can this address the capacity issue at Riverbank</p>	<p>ACC are consulting on two options which are contained in the Proposal document and which have been outlined in the presentation tonight. The third option we are not consulting on as it is a proposal being put forward by the PC at St. Peter's RC school.</p>
<p>St. Peter's community member</p>	<p>We feel that the 3rd option will ensure we have a rich and diverse community going forward not only for Catholics but for all faith and non-faith backgrounds.</p>	
<p>Riverbank Parent</p>	<p>Can my child still attend Riverbank even if St. Peter's relocates to Riverbank school? He is not a catholic.</p>	<p>Yes, all RC schools are open to non-Catholics. However priority is given to children who have a baptismal certificate.</p>
<p>Riverbank Community member</p>	<p>Has the RC church agreed to these proposals? They have a right to a RC school.</p>	<p>If the RC church disagree to the proposals, the matter would be referred to Scottish Ministers for consideration.</p>
<p>St Peter's Community member</p>	<p>Clarification about non-Catholics wanting to attend a catholic school – there needs to be space at the school, if not priority will be given to catholic children with a baptismal certificate.</p>	<p>Yes, that is correct.</p>
<p>Riverbank Parent</p>	<p>Concerns about distance of</p>	<p>New site is very close proximity</p>

	where the new school will be built i.e. Former St. Machar School site	to Riverbank school.
Riverbank staff member	Concerns about splitting up the Tillydrone Community. If two schools were to exist in Tillydrone it could rip the community apart. It has taken 8 years to build and unite the community and therefore we wouldn't want a Shared Campus. Riverbank is a very strong, rights respecting school. There is no vandalism or fighting, great atmosphere and is well supported both by the pupils and parents. A Shared Campus would be a backward step for Tillydrone.	We will note your comments regarding this option.
Riverbank parent	What about the lack of teachers at the moment, won't it be difficult to get more teachers for the new school?	ACC is working on this to ensure there is adequate staff for all schools .
Riverbank PC member	Essentially a Shared Campus would mean 3 schools for Tillydrone – this would be too much.	Note your comments
Riverbank Parent	What is the timeline for the New School	If the Elected Members approve to proceed with either option, the design stage would commence immediately. We would look to have a contractor appointed approximately May 2018. School to be ready for 2020.
St Peter's Parent	Thanked Officers for taking on board their comments. Parents of St Peters want the offer of a new build. Why does Riverbank want to move? Would it not be more appealing to stay at Riverbank and to look at expansion options?	Response by Riverbank PC: - Would love to stay if it was the best option for the children to continue to grow with the same ethos at Riverbank but we don't think that is the best option.
Cllr. Grant – Local Elected Member	This is not about one school getting more than the other. Members will take and seriously consider all the points raised in the consultation. We can't put out the proposed third option out for	

	data and figures to be provided.	taken into consideration. Those figures are tracked through the figures which come in.
Parent	Asked for Dunbar Hall site slide to be shown again. In his opinion, there are 2 issues. The increasing capacity of Riverbank and pressing issues at St Peters. His opinion is that the consultation is heavily based on finding a Riverbank solution. He feels there is no case for St Peters. He feels the reasons for discounting Dunbar Halls does not take St Peter's issues into consideration. There are 2 issues with 1 solution. Also asked if the Dunbar Halls site option was completely ruled out.	It was explained that there is a new school as an option for St Peters... The site restrictions for Dunbar Halls were explained again (does not belong to ACC, too small, irregular shape etc...) Dunbar Halls option was ruled out through options appraisal for a number of reasons.
Parent	This parent had concerns about the distance from Seaton to a site located in Tillydrone. She asked why put another school in Tillydrone – there is Kittybrewster, Sunnybank, Riverbank all in the Tillydrone area. This parent lives in Seaton and feels a school in Tillydrone will be far away. She feels she does not have choice living in Seaton. She mentioned capacity issues in Seaton School.	ECW – asked this parent to submit this query formally.
St Peter's Community Member	Told attendees that St Peter's PC has put through a third option to have a 2 stream new school for St Peter's only on the St Machar site.	
Old Aberdeen Community Council	Asked if we spoke to Angus from the University about purchase of Dunbar Halls. Wonders if it has been properly assessed – they asked the University about being approached and they said they hadn't... Asked if any meetings with ACC and the University were minuted? Questioning	ECW – confirmed yes and he has spoken to Angus about this since Summer... Euan said not all discussions were minuted. MT - said we completed a full appraisal process and looked at all sites – to see what was out there, and whether they were suitable. This process has been followed. A site plan with

	whether the process was followed properly.	proper measurements of the Dunbar Hall site has been requested.
Parent	<p>Asked if is there an option 3 and if so, what's our opinion? If the consultation closes on Friday then the how is there time to discuss option 3?</p> <p>Another question was asked about how shared campuses work in other areas.</p>	<p>ECW - said only 2 options form the consultation but all suggestions will have to be explored and see if they can be taken forward or not.</p> <p>ECW – explained that in his experience, shared campuses work.</p>
Parent – St Peter's	<p>Heard about the campus layout and said they don't want this type of school in Aberdeen. They want a separate school but not in Tillydrone – Seaton area – why can't we have this choice? Website shows 2 options not a 3rd so what do we do?</p>	<p>ECW - said the 3rd option has been brought forward by the PC – she needs to write in to support this. Also explained the 2 options and that any other options/alternative suggestions would be assessed.</p>
Parent	<p>Asked why this has been dealt with through 1 consultation and not separately. She said there are 2 separate issues and none of the options are satisfactory. She feels the consultation focusses heavily on addressing Tillydrone issues.</p> <p>Another question about shared campus – this relies heavily on working together to make it work.</p>	<p>ECW - we have huge pressures around nursery and will make sure we can increase capacity of both schools. Both options will address the capacity issues.</p> <p>ECW - said in his experience, there were no issues re shared campuses.</p>
Parent- St Peters	<p>Worried about how the shared campus would work.</p>	<p>ECW – explained that in his experience they can work well.</p>
St. Peter'	<p>Explained that it took Tillydrone many years to 'gel' together after the merger. Do we think creating a shared campus would do the same again? Would this create tension? It is a similar situation – there are 2 sets of pupils and throw in faith as well... No matter what option, St Peters will be in crisis for another few years. Been like this since 2011.</p> <p>Talking about her experience,</p>	<p>ECW - said they would work together as they see fit. They can integrate through a period of time before hand to help ensure transition and work together. He said we are here now to find an option to address the issues faced by St Peter's.</p>

	Irene said 60% of the roll were RC and the school was a rich environment for all religion sets in it. She said we need to integrate, not segregate.	
Parent	Asked about the elements forming the figures – what about the immigrants? Muslim community prefers to go to a RC school – the issue of integration is even more important.	ECW – explained the roll data again and agreed.
Parent - St Peters	Asked why Dunbar Halls can't have a building designed around the site constrictions.	ECW - said we have already answered this query.
Community Council Member	Why were options for each school not considered separately – why a combined solution? He said the cost may be a driver but this is not the ideal solution for the schools. He thinks we haven't costed up the options properly before deciding the options for consultation.	ECW – asked for these views to be submitted to us.
Parent- St Peters	Why are we trying to address 2 problems with 1 solution? There is tension already and people and talking about the whole process.	ECW - said we have already answered.
Parent – St Peter's	Is there an option for building a new school here?	ECW – confirmed that the existing site is not suitable or big enough to create the learning experience we want to provide for pupils.
Parent – St Peter's	Asked for in future consultations if we could present and show the ruling out process of options to parents so they can understand fully why.	ECW – took these comments on board
Feedback 8 th December 2016 (venue - Riverbank school)		
Participant	Question/Topic Raised	ACC Response
School HT / DHT	Question re nursery placing	Yes
Parent	If option C is taken forward, would we be forced to go to	ECW – there would be a choice to go to attend another school

	another school if in the catchment?	(placing request)
Parent	Would it not make sense that the bigger school is the non-denomination school?	ECW - St Peter's is available for all – families only provide RC certification due to existing pressures.
Parent	Is there a priority for faith children? If both were full, would pupils living in the zone have to pass 2 schools to get to one with capacity?	
Parent	St Peter's turns away 60 applicants every year – do they go to Riverbank?	ECW – No. All pupils with certificates over the last 3 years have not been refused at St Peter's.
Parent	Option to solve overcapacity for St Peters - ask them to go to the under capacity RC schools in the city. Feels Riverbank don't have an option or choice... Is there other option to have somewhere more "middle ground" in the city for them to have a school?	ECW - Yes – they have other options. Parents can place placing requests should they choose. ECW – other options were assessed – there were issues with greenspace etc. so weren't taken forward. Happy to take suggestions they may have.
St. Peter's Community Member	Mentioned about distance for parents living in Seaton. They don't have an option to walk if they don't drive	
Parent	Is the pressure at Riverbank down to incomers from Europe? If that is the case, is there a presumption that many of these would prefer to exercise a choice to go to St Peters? If they are unable to get into a RC school the most likely place is where there is no choice – Riverbank.	ECW – There is a huge income from all over – including the UK – we want to give the best options we can. Both proposals provide answers around pressures at each school. Housing is taken in consideration when rolls are projected
Parent	There are capacity issues at Riverbank and they are not going be resolved by making a bigger faith school – doesn't agree with option C. There are enough parents wanting their children to come to Rivebrank and are being turned away –	ECW – what we are clear on is the forecast method is consistent across the country. What we look at is using the same data and work out a % for each area for RC schools.

	<p>same for both side. This is a city wide issue and not just St Peters. She believes specific spaces in a faith school are preferential treatment. (Irene commented that both schools are 2 separate issues which have been lumped together)</p> <p>Parent again – is there enough to fill a 3 stream RC school?</p> <p>Irene gave historic figures – parent said if the projected roll is wrong will we have a half empty school?</p>	
Irene	<p>Queried historic roll projections.</p>	<p>ECW – what we are clear on is the forecast method is consistent across the country. What we look at is using the same data and work out a % for each area for RC schools.</p> <p>Spoke about housing. These are the best estimates we can provide and year on year they are not far out.</p> <p>We can't predict housing developments.</p>
Riverbank Teacher	<p>Mentioned and quoted from the Feb Committee – why are St Peter's problems being lumped with Riverbank together - because there's not funding for both separately,</p> <p>Not clear in the paper or minuted properly – they have been lumped together.</p>	<p>ECW – he was clear that it was covering both schools.</p>
Chair Riverbank Community Council	<p>Stated that they have already been through school closures in Tillydrone – there's been no nursery provision suitable for the number of residents. Donbank, St Macher PS and Tillydrone PS – what has changed in 50 years? Seen 2 schools demolished, this school (Riverbank) expand in year in and out and still took the choice to demolish a school.</p>	<p>ECW – we do not disagree – want to make sure there's enough space for children at Riverbank and St Peters and solve both issues through this consultation.</p> <p>ECW – rationalise and solve the problem and take this forward.</p>

	<p>We need to have a provision which provides from nursery right through, for those in the area. How are we going to address the issue? It is time that this changed and addressed the pressures in the zone. Need a clear vision to facilitate capacities for the children in the area?</p> <p>Asked what the councillors do to make a decision?</p>	
HT	Option C – would the 200 place nursery be non-denominational? Would this be Tillydrone residents who have priority?	ECW – yes.
Parent	Option B – St Peter’s into Riverbank – is it big enough?	Yes – it is big enough
Parent	Why is there an option C? If Riverbank is big enough why this option? (Irene said they dispute the figures and be in the same position for St Peters since 2011. We do not want to be restricted just RC – it is welcoming to all.) Parent said Riverbank is a rights respecting school.	
Parent	She read through RC education and relates back to God – if we didn’t choose that for our child then there’s no option – therefore option C not good.	
	Option 1 – why only a single stream for Riverbank?	ECW - Would address capacity issues.
Parent	Option 1 is dividing the community – they work well together now and they are being segregated and there will be friction now.	
Parent	Have we looked a crime rate data? Now we have a community there is less crime because we are one community – when it is split, it will divide the community again.	
Community Council	St Josephs – is it not big enough to take St Peters as a whole?	ECW – no.

Parent	Future rolls in the city – will there be shared campus options elsewhere? She feels it simply wouldn't work in Tillydrone.	ECW – Shared campuses do work and gave his experience.
Parent / Community Council	There are fears over being overrun by traffic in Tillydrone area.	
Parent / Community Council	The prediction of growth has not been good in the past – the future is very narrowly based and is not shared by people in the community who see something different. The nature of the incomers are swelling the figures.	ECW - With the info we have these are the best future we can provide
Parent	Parents wanted to know the projections for Holy Family and St Joseph's.	ECW – will get figures to them.
Community Council	Asked for location of pupils attending St Peters.	MT - gave figures.
Parent	Is there not a possibility of a combined campus in Seaton?	ECW - Put this forward to us for consideration.
Parents	Option 1 would need more money as Riverbank would need more money spent on it for refurbishment of the existing building.	ECW – yes, more money would be needed.
Riverbank Teacher	Option 3 – do we need to go out to consultation again to consider this?	EWC - No – the engagement process is only on the 2 options but comments brought forward are assessed.
Parent	There is a poor turnout in the area for the consultation – this is because residents believe that Elected Members will do what they want anyway. Parent wanted this noted.	ECW – explained the 2 acts and parents views are very important.
