What is the most positive part of the proposal (if any)?

There is nothing positive with the proposal!

What is/are your main concern(s) about the proposal?

My son would have a substantial walk to school every day if he had to go to Glashieburn and then be exposed to a school which is not big enough!

What would you like the Council to know about the proposal?

I would like the council to know that it is an absolute disgrace to close a primary school which is performing

Overall, do you support the proposal? Yes ☐ No ☒ *Very well.*

Any other comments?

Cannot believe that the council are looking to close 2 perfectly performing primary schools and make one which will not be fit for purpose with the curriculum for excellence agenda. Especially as there are proposals for new houses to be built in the very near future.

What is the most positive part of the proposal (if any)?

There is nothing positive at all about the proposal.

What is/are your main concern(s) about the proposal? The parking, how it is going to effect my child's education.

What would you like the Council to know about the proposal?

It shouldn't be happening in the first place.

Overall, do you support the proposal? Yes ☐ No ☒

Any other comments? Should the school's amalgamate, my biggest concern is the parking, is it going to take a child to be knocked over or seriously hurt for the council to realise that they have made a bad decision.

It is so important to merge these schools why not do what Breachhead/Upper Westfield do and build a school for purpose.

What is the most positive part of the proposal (if any)?

What is/are your main concern(s) about the proposal?

I am extremely concerned in that I am finding it difficult to identify any benefits to the children in this proposal. With regard to the Curriculum for Excellence, how can this be delivered more effectively in a more crowded environment with less access to amenities such as use of the games hall, ~~etc~~ access to computers for research.

What would you like the Council to know about the proposal?

There are obvious implications for travel to and from school - etc. issues of transport and safety. As regards Health and Wellbeing, will lunchtime be a time to enjoy a healthy lunch with peers or merely a very rushed, hurried time because the next group of children need to come and eat.

Overall, do you support the proposal? Yes ☐

No ☒

Any other comments?

lots of education initiatives upheld by Aberdeen City Council need to be given consideration in this proposal - the delivery of the Curriculum for Excellence, GIRFEC (many children will be unsettled if this goes ahead), provision of SFH, adherence to guidelines on Health and Wellbeing.
