

This Register of Baptisms for St Nicholas Parish covers August 1849 to November 1850 and contains over 800 names. The information contained in this index shows the date of baptism, the name and occupation (where noted) of the father, the name of the mother, and name and sex of the child where it may not be immediately obvious. Further information in the Register includes the names of witnesses.

The names have been transcribed as written, so some may not conform to modern spellings.

If you would like to know the full entry, please make a note of the names of the people concerned, and the page number of the entry then email archives@aberdeencity.gov.uk with your query.

Our thanks go to volunteer Christina Leech for the monumental effort in transcribing this volume.
