

1.1 Please let us know the capacity in which you are completing this questionnaire. Are you...	
a) A member of the public	✓
b) A community representative e.g Community Council	
c) A developer/their agent	
d) A landowner/ their agent	
e) From a Key Agency	
f) Other – please specify	live in the Bridge of Don area
Name	Carol Carnegie
Organisation	
Organisation/group/landowner:	
2.1 What do you think are the most important things that make Aberdeen a good place to live, visit and/or work?	Good roads network, affordable and reliable public transport. Aberdeen serves a wide rural area, we have to accept that cars are essential and not punish car owners and drivers. A place to park at our local hospitals. Schools that provide a safe, friendly and professional education, while ensuring that classrooms are not overcrowded. A dedicated, suitable place for travellers to stop at, they must pay rent. Traveller codes of practice that has powers to punish if this code is not abided by. Green areas kept well, encouraging wildlife habitats. Incentives for businesses to invest in Aberdeen.
2.2 What do you think should be the Council's top priorities for the next Aberdeen Local Development Plan?	Roads. Education. Business. Environment. Tougher stance with illegal encampments

<p>2.3 Do you have any particular aspirations for your community or Aberdeen as a whole that you think should be taken forward through the ALDP? For example, what are your views on recycling of waste, affordable housing, access to green space or ways to reduce CO2 emissions?</p>	<p>affordable housing essential for our genuine hardworking youth</p>
<p>2.4 What do you think should be our main planning priorities for the City Centre? (For example, what should the role of Union Street be? Does the City Centre have all the uses we want, or should there be more uses there- and if so where could they go?)</p>	<p>Union Terrace garden should have given the go ahead to raise the level and make it an attractive green space, a centre for Aberdeen. It has no natural centre just now. Look to Dundee, how do they manage it?</p>
<p>2.5 What do you think should be our main planning priorities for providing infrastructure? (For example, how should new infrastructure be provided and how might it be paid for?)</p>	<p>I am not qualified to answer this question</p>
<p>2.6 What do you think should be our main planning priorities for transport and accessibility? (For example, how can we make it easier to travel in and around Aberdeen? Should we look at pedestrianisation in the City Centre?)</p>	<p>No to pedestrianisation on Union St, please. Ublc transport needs to be improved. Stagecoach Bluebird seem to be making a real effort. Day passes should be multi bus company valid</p>
<p>2.7 What do you think should be our main planning priorities for ensuring we have high quality buildings and places? (For example, how can we better protect our built heritage and ensure high quality and sympathetic architecture and landscape design?)</p>	<p>I am not sure but maybe our seagoing and oil hertage be a motivational start point</p>
<p>2.8 What do you think should be our main planning priorities for meeting the needs of business and industry? (For example, what can be done to retain existing businesses and attract new employment opportunities to Aberdeen?)</p>	<p>Not to tax international companies out of Aberdeen, bearing in mind Dundee not far away and seem to be very accomodating to business</p>
<p>2.9 What do you think should be our main planning priorities for meeting Aberdeen's housing and community</p>	<p>Dont know</p>

<p>needs? (For example, how can we meet the needs of people who cannot afford mainstream housing?)</p>	
<p>2.10 What do you think should be our main planning priorities for supporting retail centres across Aberdeen? (For example, should we be safeguarding existing centres, and what are your thoughts on new out-of-town retail parks?)</p>	<p>there is space for both.</p>
<p>2.11 What do you think should be our main planning priorities for protecting and enhancing the natural environment, and preventing flooding? (For example, what areas or features should we be safeguarding?)</p>	<p>Natural features should be the start point. Flooding plains should be looked at historically to learn lessons from the past</p>
<p>2.12 What do you think should be our main planning priorities for ensuring that resources and waste are managed sustainably? (For example, can we make more innovative use of waste as a resource? Should we encourage renewable energy use? How could we do these things?)</p>	<p>Encourage renewable energy, how I do not know. You should look to appoint local experts</p>
<p>2.13 If you have any views on topics not covered above, please write them below.</p>
