What would you like to say about the issue?

This site lies next to the Championship Course at Royal Aberdeen, which has attracted a number of high profile events over recent years including the Walker Cup in 2011 and the Scottish Open in 2014. These events have a positive effect on the local economy and boost golf tourism within the area. It is therefore important that the setting and amenity of the golf course be protected.

The proposed location of the recycling centre would be immediately adjacent to the the 14th hole on the Championship Course and we are concerned that this would adversely affect the amenity of this part of the golf course. On this basis, we do not support the formation of the recycling centre in this location.

The plans which were put forward during the consultation on the masterplan for this site included little or no landscaping along the eastern boundary. We support the retention of the existing woodland buffer along southern half of the eastern boundary, and consider that a more substantial strategic landscape belt should be created along the entire eastern boundary where it adjoins the golf course.

This site has over recent years been used for public parking during the major events described above. The loss of this parking facility will not assist in the attraction of high profile golf tournaments in the future.

What change would you like to see made?

Deletion of the Household Waste Recycling Centre from the allocation. If this is not favoured, then under the "Other Factors" section include the following text:

"The Household Waste Recycling Centre shall be sited to ensure that no adverse impact on the amenity of the neighbouring golf course arises."

"A strategic landscaping belt at least 20 metres in width shall be planted along the eastern boundary of the development."
